PAGES 1 ENCLOSURES (NO. & TYPE) \_\_\_\_\_

## REMARKS

## SOURCE

8 September 1949

1. About 50 Pe-2s were parked on the northern edge of the ZWOELFAXING (P 49/X 48) airfield. There was no flying.
2. Two radar sets had been set up about 130 feet apart at the northeastern edge of the airfield, on level terrain. The sets did not extend below the surface nor were they mounted on a pedestal. Their mirrors were rotating, at an even speed, around a vertical axis. Two trucks with continually running engines were parked in the vicinity.

15 September 1949

- 25X1X 2. Thirty-six Pe-2s were counted at the airfield. Soviet Air Force soldiers hauled coal to the airfield with the following trucks: [REDACTED]

Comment:

- a. The number of Pe-2s at the ZWOELFAXING airfield apparently has not changed since May and June 1949. A component bomber regiment of the 1st Gds Emr Div is still assumed to be stationed there.
- b. The presence of a radar set at the airfield was also observed in July 1949. According to the description, however, the set was not identical to the one mentioned in this report. The latter set is probably of the same type as the one observed at the FINOW airfield.
